Increased clearance

The clearance height is increased by 16 inch compared to the previous model until it reaches **14,57 inch** of load opening. It is therefore possible to wash larger objects.

New Microfilter PLUS

The new microfilter system cleans dirty water in a few washing cycles, and reduces detergent consumption by 20%. The fine residual dirt is collected and discharged also during the washing cycle.

A	Max. Drain Height to Wall	
E	Hot Water Inlet	3/4" G
L	Electrical Connection	208/1~60Hz
