

GELATO10KAUTO

Prepare gelato recipes with Nemox. This freestanding commercial gelato machine produces up to 24 lb (8 kg) per hour and maintains the product at the ideal serving temperature. Equipped with eco-friendly R290 refrigerant, it delivers efficient performance while reducing the environmental impact.

FEATURES

- Convenient lid opening allows ingredients or mixture to be poured directly into the machine during operation.
- Magnetic lid automatically stops the blade when opened, ensuring enhanced operator safety.
- Intuitive control panel enables both automatic and manual operation for maximum flexibility.
- Freestanding design allows the unit to be placed anywhere and easily relocated as well.
- Integrated drain system for easy cleaning and maintenance.
